

Environmental Commitment

As a small business, we aim to reduce our environmental impact in practical ways that make sense for our size and operations.

We commit to:

- Minimising waste and operating as paperless as possible.
- Reducing unnecessary travel and using remote meetings wherever appropriate.
- Using energy responsibly and adopting efficient equipment where feasible.
- Donating, re-using, or responsibly recycling electronic equipment at end-of-life.
- Choosing suppliers and partners who demonstrate environmentally responsible practices, wherever possible.

We review our environmental practices periodically as our business grows and we will continue to look for simple, meaningful ways to reduce our footprint.

A handwritten signature in black ink, appearing to be "Karel de Bruin". The signature is stylized with a large, looped initial "K" and a long, horizontal stroke extending to the right.
